

Reusable: Each Plastic Form Board set can be reused multiple times. Once the casted concrete attains the strength, the form is stripped and cleaned, it is ready for the next form to be made and poured.

Workability: Assembling and dismantling is very easy. Can be sawed, drilled or nailed.

Easy to clean: Form Board has a specialty treated surface that resist sticking to concrete.

Storage: Forms Boards can be stored any place. It does not need a cool, dry environment for storage.

Handling: Form Boards are light in weight and can be easily handled.

Economy: Our Form Board is very economical, and used products recycle making this a wise investment choice for any project.

Durable: Our Form Board is:
Wear Resistance
Impact Resistance
Acid Resistance
Alkali Resistance
Corrosion Resistance

Waterproof: Thus NO absorption of Moisture. No deformation. No Mildew or Mold.
